
STUDENT DISCIPLINE

It is essential for schools to maintain a safe and orderly environment which supports student learning and achievement. Good discipline allows the schools to discharge their primary responsibilities to educate students and promote good citizenship. All students are expected to conduct themselves with respect for others and in accordance with School Committee policies, school rules, and applicable state and federal laws. Disciplinary action may be taken against students who violate policies, rules, or laws, and/or whose conduct directly interferes with the operations, discipline or general welfare of the school.

The Committee expects the following principles to guide the development and implementation of school rules and disciplinary procedures:

- A. Discipline should emphasize positive reinforcement for appropriate behavior, as well as appropriate consequences for misbehavior. The focus should be on providing a school environment where students are engaged in constructive learning and interactions with others.
- B. Expectations for student behavior should be clear and communicated to school staff, students and parents.
- C. Consequences for misbehavior should be in proportion to the offense, fair and consistently enforced.
- D. Parents should be actively involved in the process of preventing and resolving disciplinary problems at school.

Physical force and corporal punishment shall not be used as disciplinary methods, except that a teacher or other person entrusted with the care or supervision of a person for special or limited purposes may use a reasonable degree of force against the person who creates a disturbance if the teacher or other person reasonably believes it is necessary to, a) control the disturbing behavior or, b) remove the person from the scene of the disturbance.

Teachers are authorized to make and enforce rules for effective classroom management and to foster appropriate student behavior, subject to the direction and approval by the Principal/designee.

School-wide rules shall be developed by the building principal with appropriate input from school staff and subject to approval by the Superintendent. Principals shall provide for the suspension of or other serious disciplinary action against students in accordance with School Department policies, administrative procedures and Maine law.
