January 28, 2022

Dear Parents/Guardians,

The Bangor School Department in collaboration with Bangor Public Health will be offering vaccination clinics to administer the COVID-19 Booster Vaccine for children 12 years of age and older. Children will be offered the Pfizer-Biotech COVID -19 Booster Vaccine to prevent coronavirus disease 2019(COVID -19) caused by SARS-CoV2. The booster is available to those individuals 12 and older who have had their complete vaccine series (2 shots) AND it has been over 5 months since the last vaccine. The clinic will also provide opportunity for those wishing to begin the vaccination series of two shots.

The clinic will be offered on Tuesday, February 15, 2022 from 3-5pm at both the James F. Doughty School and William S. Cohen School. In order to prepare for the clinic, we ask that you call the school in which you will attend the clinic and sign up for a spot no later than Friday, February 11, 2022. We will stagger appointments every 10 minutes and will offer six slots every ten minutes at both sites. Please call the schools at the number below

James F Doughty School      941-6220  
William S. Cohen School      941-6230

Please be sure to bring your signed consent form with you to the clinic. The PLEASE NOTE THAT THE CONSENT FOR THE INITIAL VACCINATION IS DIFFERENT FROM THE BOOSTER.

If you would like to read the Fact sheet on the vaccine, it may be found at <https://www.cvdvaccine.com/>. If you do not have access to the internet to read the Fact Sheet, please contact your child's school and they can provide one to you. If you have further questions in regards to the vaccine, please contact Bangor Public Health at 207-992-4554 or via email at [vaccines@bangormaine.gov](mailto:vaccines@bangormaine.gov).

This is another step that the Bangor School Department is taking to support families in keeping our students safe, in school, and to prevent the spread of COVID-19. Please contact the Office of Pupil Services with questions in regards to clinic times at 207-992-4173.
